Gilles Cuniberti, Professor of Comparative and Private International Law, University of Luxembourg. He was also a Visiting Professor at Columbia Law School, New York, and National University of Singapore. The Conflict of Laws, also known as private international law, is a field of the greatest importance in an increasingly globalized world.

Conflict of Laws: A Comparative Approach

Description. Full application of comparative methods to the law of conflicts requires a working plan of some magnitude. We ought to take stock of the conflicts rules existing in the different countries of the world, state their similarities or dissimilarities, and investigate their purposes and effects. The solutions thus ascertained should moreover be subjected to an estimation of their usefulness, by the standards appropriate to their natural objective.

Once a preliminary analysis has identified a true conflict of the governmental interests involved as applied to the parties under the particular circumstances of a case, the comparative impairment approach to the resolution of such conflict seeks to determine which state's interest would be more impaired if its policy were subordinated to the policy of the other state.

Comparative Impairment Analysis - Conflict of Laws

Conflict of laws. Conflict of laws (sometimes called private international law) concerns the process for determining the applicable law to resolve disputes between individuals, corporations (and in some systems the state in certain contractual relationships) in multi-jurisdictional cases and transactions. Conflict of laws especially affects private international law, but may also affect cases where a contract makes incompatible reference to more than one legal framework.
