### Yamaha Tune-up & Engine Specs - Vintage Golf Cart Parts Inc.

Engine. A Yamaha golf cart engine is typically a four-stroke gasoline engine with a single cylinder. This is deemed to be suitable when comparing the power and performance of the engine to the golf cart's weight (the official weight of the cart is 255 kg or 562 lbs.). From this calculation, the golf cart can reach a maximum speed of 15 miles per hour.
