### Error Analysis, Interlanguage and Second Language ...

Interlanguage fossilization is a phenomenon of second language acquisition (SLA) in which second language learners turn linguistic features that are correct in their first language into permanent errors in the way they speak and write the new language. In other words, they develop and retain their own, personal linguistic system that is self-contained and different from both their first ...

According to Corder's notion of idiosyncratic dialects, Nemser's concept of approximative system, and Selinker's theory of interlanguage hypothesis, the study of learner's language system involves an analysis of: 1. the learner's NL utterances, 2. the learner's IL or idiosyncratic utterances, 3. utterances which are produced by ...

### Chapter 5

However, contrastive analysis certainly cannot predict these developmental errors. For example, German learners persist for some time in making erroneous choices between "much" and "many" despite the fact that German also makes a formal distinction between singular viel and plural viele .

### Contrastive Analysis, Error Analysis, Interlanguage 1

Errors vs. mistakes. Chomsky (1965) made a distinguishing explanation of competence and performance on which, later on, the identification of mistakes and errors will be possible, Chomsky stated that "We thus make a fundamental distinction between competence (the speaker-hearer's knowledge of his language) and performance (the actual use of language in concrete situations)" ( 1956, p ...

### Error analysis (linguistics) - Wikipedia

The process of error analysis According to Corder, error analysis can be roughly divided into three stages: recognition of idiosyncrasy, accounting for a learner's idiosyncratic dialect, and explanation. Corder has also pointed out that in the process of error analysis, concentration only on superficially ill-formed
