Orthotopic Ileal Bladder Substitution in Women: Factors ...

In certain types of bladder (urine bag) cancer, treatment of the disease can only be achieved by removal of the bladder. After removing the bladder, this organ is reformed from the intestines and new product is called an orthotopic (artificial) bladder. In other words the aim is to form a new bladder to store and [...]

What is Orthotopic (Neobladder) Bladder ? - Urology Istanbul

From a patient's perspective, a satisfactory bladder substitute must allow complete voluntary control of voiding, which requires a reservoir with an adequate capacity, complete urinary continence, and a normal pattern of micturition at the usual anatomical position. All this can be successfully achieved by an orthotopic bladder substitution.

Quality of Life with Orthotopic Bladder Substitution: Use ...

Patients who survive up to 20 years after radical cystectomy and diversion with an ileal orthotopic bladder substitution may enjoy satisfactory urinary continence and retain the ability to void spontaneously while experiencing no more than a physiological decrease in renal function.
