The information is based on standard museum and library practice and is basic and non-technical. It emphasizes preventive care---the measures that reduce or prevent deterioration--- and focuses on a cost-effective

approach to the preservation of collections long-term. The first six topics address the general needs of all types of items.

breeding branch the Zonnehoeve has a care branch: a living - working community for persons with development problems. This activity is integrated in the production cycle: the participants of the care facility work on the farm and in the bakery. Work: the volunteers will work on the farm and in the natural reserve areas around the farm.

Official Longines service center in ALMERE | Longines

The country is indeed low-lying and remarkably flat, with large expanses of lakes, rivers, and canals. Some 2,500 square miles (6,500 square km) of the Netherlands consist of reclaimed land, the result of a process of careful water management dating back to medieval times. Along the coasts, land was reclaimed from the sea, and, in the interior, lakes and marshes were drained, especially ...
