The SAT subject test in biology has two variations, E and M; E stands for ecological biology, while M stands for molecular biology. In this post, we'll go over the distinction between the two variation, what topics each variation covers, and how to decide which test would be better for you personally to take.

### SAT Biology E or M? Which Test Should You Take?

The SAT Biology E and M tests are two of 20 subject exams offered by the College Board. Although not all colleges and universities require SAT subject tests for admission, some do require them for specific majors or offer course credit if you score well enough. These tests are also useful for assessing your knowledge of science, math, English ...

### Should You Take the SAT Biology E or M Test?

The SAT Biology E/M Subject Test is a multiple-choice test with 80 questions. You'll answer 60 multiple-choice questions on core principles in biology; then, depending on the additional subject matter you selected, you'll answer an additional 20 multiple-choice questions on Biology-E or Biology-M subject matter.

### SAT Biology Subject Test: Practice tests and explanations ...

The SAT Subject Test in Biology is the name of a one-hour multiple choice test given on biology by the College Board.A student chooses whether to take the test depending upon college entrance requirements for the schools in which the student is planning to apply. Until 1994, the SAT Subject Tests were known as Achievement Tests; and from 1995 until January 2005, they were known as SAT IIs.

### SAT Subject Test in Biology E/M - Wikipedia

One of the best books for scorers in this range is the Princeton Review SAT II Biology E / M guide. I have many issues with the Princeton Review general SAT books, but their SAT Biology E/M book is a very quick read and can be finished in 20 hours for sure. You'll want to take a few practice tests: three would be ideal.
